

Semco® specialty application nozzle

Semco® roller nozzles are designed to apply adhesives and sealants evenly over a wide area of substrate. They are ideal for the application of faying surface sealants. The 1/4 NPT male threaded end can be used with any of the Semco® line of disposable cartridges and Semkit® packages (i.e. 1, 2.5, 3.5, 6, 8, 12, 20, 32 oz. and 1/10 gallon sizes).

The nozzles are available in one and two inch widths. The roller base is precision molded of chemically resistant material and can be solvent cleaned for re-use.

Assemblies and replacement rollers

Part no.	Description
232693	1" Roller nozzle assembly
232692	2" Roller nozzle assembly
232701	1" Replacement roller
232702	2" Replacement roller
